Serial Nos. Jrc

Part B for August 1928

SUBJECT

Allocation of Scholarships available at
the Chamaigaiya Technical Institute

D 1958-6 or 11 A 20

To Director, the Comptroller

Sanction the R.

Serial
No.

From The D. of H.C.

NO. D/- 27/22-28-28 4/5-7-1928

In submitting a statement showing the allocation of Scholarships tendered at the C.T.I for 1927-28 for sanction of Govt. States that the Supdt. C.T.I. should be permitted to determine the no. of Scholarships that should be awarded to each class in each of the Sections, in any year, the amt. not exceeding Rs 965/- p.m., in addition to the power of transferring unutilised scholarships from one Section to another, etc, and that the rate of Scholarship in different classes of the several Sections will not be altered without the sanction of Govt. ~~and~~

1) In G.O. no B 9321-2/11-213-24-11-29 29-4-27, Govt. sanctioned the allocation of Scholarships for 1927-28 proposed by the Supdt. C.T.I. and ~~the~~ also of the D's proposal that the Supdt. may be authorised to transfer unutilised Scholarships from one Section to another without exceeding the scale or value of the Scholarship.

2) In addition to the power above referred to the D. recommends that the Supdt. C.T.I. should be permitted, under his orders, to determine the no. of Scholarships that should be awarded to each class in each of the Sections in any year, the amt. not exceeding the maximum allotment of Rs 965/- p.m., so as to facilitate the adjustment of the total grant to the varying requirements of each year.

File No. 10 of 1928.

Serial
No.

23
192

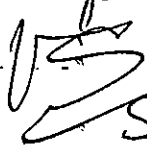

3) The alternative which the D. proposes is to fix ~~income~~ for all the no. of Scholarships payable in each class irrespective of the no. of pupils studying in it.

4) If the former method is adopted, it will help the Bupdt. to use his discretion in granting a scholarship to a deserving student ^(holding a scholarship) who passes successfully from a lower class to the next higher class.

5) If the latter method is adopted, the no. of Scholarships to be awarded in each class will be very large, ~~if~~ ^{if} the contingency of poor scholars finding themselves without scholarship in their higher course is to be avoided.

6) The D. states that Govt. sanction will be obtained if the rate of Scholarships to be awarded in different classes, has to be altered.

Submitted for Orders.

20/7.  The former alternative is preferable. Some latitude, within the limits of the budget provision, is necessary in the matter of readjustment of scholarship among the several sections.

9. The Allocation of scholarship for 27-28 may be now formally app^d by Govt. The Dn may also be permitted discretion, as suggested in

General and Revenue
Secretariat.

REV. SECRETARY
6 JULY 1928
DEVELOPMENT BRANCH

SIR,

I have the honour to forward herewith a statement showing the allocation of scholarships tenable at the Chamarajendra Technical Institute for the year 1927-28 for the sanction of Government. The statement was submitted by the Superintendent, Chamarajendra Technical Institute in February last and was provisionally approved by me after some correspondence in June 1928. It may be formally approved by Government.

In the Order No. 29321-2 dated 29th April 1927 Government approved of the allocation of scholarships proposed by the Superintendent for the year 1927-28 and sanctioned the Director's proposal that the Superintendent may be authorised to transfer unutilised scholarships from one section to another without exceeding the scale or value of the scholarships. In addition ^{to} the power to transfer unutilised scholarships already sanctioned from one section to another, it is desirable that the Superintendent should be permitted, under the orders of the Director, to determine the number of scholarships that should be awarded to each class in each of the sections in any year provided the total value of the scholarships so sanctioned does not exceed the maximum allotment of Rs 965/- per month approved by Government in the order referred to above. This power is necessary in view of the fact that the number of students in each class will vary from year to year and it is reasonable that a pupil who has drawn a scholarship in a lower class in one year

should be entitled^e to get the scholarship tenable in the next higher class, if he deserves^e promotion so long as the total grant is not exceeded. The only alternative to this arrangement which is proposed to adjust the total grant to the varying requirements of each year would be, to fix once for all the number of scholarships^s tenable in each class irrespective of the number of pupils; studying in it. If the latter method should be adopted the number of scholarships to be awarded in each class will have to be relatively large if sufficient inducements should be given to poor students to complete their course of training and the contingency of poor scholars finding themselves without scholarships in their higher courses should be avoided. I beg however, to state that the rate of scholarships to be awarded in the different classes of the several sections ^{is} ~~is not proposed~~ and will not be altered without the sanction of Government. If these proposals are approved the allocation of scholarships for the year 1928-29 will be dealt with accordingly,

I have the honour to be,

Sir,

Your most obedient servant,

Changanatha Rao Sahib

D i r e c t o r.
